The subscribers (appraisers aforesaid) beg leave to represent to the Honorable Court that by the Vth Section of the Act entitled to 'An act for proving and recording Wills, and defining the duties of Executors and Administrators, the appointment of Guardians and the distribution of insolvent Estates'. It becomes the duty of the appraisers to allow the Widow such provisions as they shall think reasonable for the support of herself and family Children twelve months - which provisions shall not be returned in the Inventory this duty we have not performed for it has appeared to us in performing our duty as appraisers that there was no provisions which we could assign or set off for the purpose of the support of the Widow and family except a quantity of pickled pork. We have therefore appraised all the property shown us by the Administrator and have and do hereby recommend to the said Administrator to procure and furnish the Widow and family such necessary provisions as the said Vth Section direct us to allow, all which is respectfully submitted to the ^{Honorable} Court.

July 21st 1812.

Washington County ss:

James Whitney Administrator in Estate of Gilbert Devol Junior late of Maicetta deceased. Humbly begs leave to represent to the Honorable Court that from the very confused state and situation of the Books and papers of the deceased it is at present impossible to render an accurate statement of the debts due said Estate - and from the numerous demands and accounts brought in against said estate, said Administrator fully fully impressed with a belief that the personal Estate will fall greatly short of paying the debts due from said Estate. Consequently he feels it his duty pursuant to the Statute to represent said Estate insolvent which he hereby does in order that the Court may take such steps and make such order in the premises as are consonant with law and as to them in their wisdom may seem just and proper.

Your Ob^t Serv^t
